Detailed Project Experience

JPS Southeast Medical Home - Arlington, TX Architect

Worked with owner to make revisions to the registration area at the Southeast Medical Home. Scope included, relocation of the front registration area, waiting spaces, and additional financial counseling stations. 3,000 SF renovation.

5Palms Rehab Hospital - Houston, TX Architect

Existing facility conversion from long term care into specialty rehab. We completed a full ADA / code review of existing facility and implemented necessary upgrades to meet code. 25,000 SF renovation.

University of Arkansas Medical Sciences Medical Home - Pine Bluff, AR Architect

Designed a regional Medical home to provide general medical services to the Pine Bluff community. 25,000 SF renovation.

Baylor University Medical Center Dialysis Renovation - Dallas, TX Architect

Renovation and feasibility study of dialysis services. Looked at redesign options to increase the number of bays available for inpatient dialysis treatment. 7,500 SF renovation.

Baylor University Medical Center Perioperative & Critical Care Project - Dallas, TX Architect

Renovation of the perioperative services and critical care beds, included 60 new Pre-Op and PACU bays, support services, three new cardiovascular ORs, and upgrade of general patient beds to critical care & acute care beds in the existing patient tower. 130,000 SF renovated.

Northside Hospital Cherokee Replacement Hospital - Canton, GA Architect

The HDR/HRD team provided architecture and engineering services for a 120-bed patient tower that phases into a 350 bed hospital, women's center, medical office buildings, and central utility plant.

Parkland Health and Hospital System Replacement Hospital - Dallas, TX Designer

\$1.27 billion replacement hospital, 862 adult-bed full service acute care hospital (1.7 million SF), outpatient center (380,000 SF), office center (275,000 SF), parking for 6,000 vehicles, central plant, and other support facilities to achieve a new healthcare campus

Baylor Regional Medical Center Grapevine New Patient Tower - Grapevine, TX Designer

Construction of new patient tower, included renovation of existing facilities. New radiology and cardiovascular departments, expanded OR Prep/Recovery, new NICU department, and 40 new patient rooms. 175,000 SF added and 73,000 SF renovated. \$61 million construction cost.
